

Making me happy

Don't walk this way, don't talk this way
Don't look this way, don't anger me
Don't be so proud, don't shout out loud
Don't show your thoughts, until it hurts
YOU - You need me
TO - To be free
I - I don't like
WHAT - What you've made me

What is it, that makes you so happy, and what is it, that will make you so proud
What is it, that makes you so happy, and what is it, oh please let me find out

I'll mark my way, I'll talk and pray
I'll look just fine, I'll serve my mind
I'm submissive, silent breath
I'll be just tough, until its enough
I - I need you
TO - To get trough
I - I just love
THE WAY - The way you put me through

What is it, that makes you so happy, and what is it, that will make you so proud
What is it, that makes you so happy, and what is it, oh please let me find out
Oh please let me find out
Oh please let me find out

Hush little darling, don't you cry, so come to us, work, pray and die
All your anger and your pain, will get erased in your dead cold brain

Nooooo – No never
Nooooo – No never – No never
Nooooo – No never – No never
Nooooo – No never – No never

What is it, that makes me so happy, and what is it, that will make me so proud
What is it, that makes me so happy, and what is it, I finally found out
What is it, that makes me so happy, and what is it, that will make me so proud
What is it, that makes me so happy, and what is it, I finally found out
