

Nothing can stop us

*Nothing...can...stop...
Nothing...can...stop...uuuuus!!!*

Nothing can stop us
But one – he had a gun in his hand
No time to think
We had a land to defend

I close my eyes
And united we stand
Too-close-to-turn – I give a fuck about it
Too-far-to-burn – I give a fuck about it

We thought
Nothing can stop us – we thought
Nothing can stop us – we thought

Nothing real matters
What – I had a friend to protect
I saw his face
On the wide field of dead

I close his eyes
War surrounded we stood
Too-close-to-turn – I give a fuck about it
Too-far-to-burn – I give a fuck about it

We thought
Nothing can stop us – we thought
Nothing can stop us – we thought

Nothing can stop us – we thought
Nothing can stop us – we thought

Now that I'm old
I know – that propaganda and lies
Lead us straight on
In this world war demise

I open my eyes
And the memories reflect
Too-close-to-turn – I give a fuck about it
Too-far-to-burn – I give a fuck about it

NO...THING...CAN...STOP...US!!!
