

Today

Almost happy cause I live
No one's happy cause he has to give
Someone's hands reach for the stars
Help me up there to first class
To first class
Help me up there to first class

Still awaken
Lot to say
Cant await it
When you pay
My forsaken
Lot to pay
Till I reach you
Start to pray
When I reach you start to pray

If you want me this way
Heartbeats still sway
Signing my name on a starcross today
Want me this way?
Heartbeats still sway
Signing my name on a starcross today
On a starcross today
On a starcross today

My aggressions signed my life
Insides out now cause I drift
High and higher up the floor
Till I reach the final door
Final door
Till I reach the final door

Hands we're shaking
Lead us trough
Take us higher
Cause of you
For the money
Give up life
Now we're rising
Pay the price
When we're rising pay the price

If you want me this way
Heartbeats still sway
Signing my name on a starcross today
Want me this way?
Heartbeats still sway
Signing my name on a starcross today
On a starcross today
On a starcross today

All betrayers...Lies
That we met
All the bitches...fucked
That we had

All our bastards...you
Kill the ground
On which we're playing...Fight
Where love is found
That's the place where love is found

If you want me this way
Heartbeats still sway
Signing my name on a starcross today
Want me this way?
Heartbeats still sway
Signing my name on a starcross today
On a starcross today
On a starcross today
