

Put me down

Somebody is looking for you
Don't matter what you think or do
Someone get's trough your door
And so it's time to raw

Sometimes you can't say when
It's better to ignore them
Their only target are you
So what will you do?

Fuck you I'm better than you (3x)
Fuck you...

Putting me under
This side down from nowhere
Beating me up to keep
Keep me down from nowhere
Violence against me
Your hate comes from nowhere
Holding my face down
This side down from nowhere
This side down...

No..., Can't they just see
What they have done to me
That couldn't be
Put - me - down

I'm one who's looking for you
And not interested on you
Breaking through your door
Come on and try to raw

Don't you know that we just just come
You can't ignore the scum
Our target are you
There will be nothing you could do

Fuck you I'm better than you (3x)
Fuck you...

Putting you under
This side down from nowhere
Beating you up to keep
Keep you down from nowhere
Violence against you
My hate comes from nowhere
Holding your face down
This side down from nowhere
This side down...

No..., we can't just see
What we have done to you
That could be
Put - you - down

Go!!!
