

# Save me

Enough to eat - Young fresh meat  
In my street - You will creep  
Feeling free - To treat me  
When Anger starts to rise without regret

**Painful meet and greet**  
**Can you believe**  
**Let your eyes just see**  
**Save me - Say what?**  
**Save me - Can't hear!**  
**Save me - Say what?**  
**What?**

Wish come true – Killing you  
Cut your face - Deep dark place  
Boiling blood  
Destroys our hood  
My Killing streak won't end till you catch me

## **REFRAIN**

Face your death - Aftermath  
Common health – Take deep breath  
Now you're free  
Destiny  
Your salvation rise up to thousand degree

## **REFRAIN**

Lets bring it to an end  
You'll burn in hell 2x
