

Don't let us down

This is your day we voted you
This is to wait and bleed this time
This is our way we wanted you
This is to wait and see the signs
See the signs ...
See the signs ...
See the signs ...

**If we pray for peace, if you don't let us down
Goddamn we're waiting before hitting ground
If we serve and die, if you don't let us down
Goddamn we're waiting for this last round
Don't let us down
Don't let us down**

Your strength and will set points to kill
This is the lie to feed the crowd
Your programmed words they left us hurt
This is to face the seed of war
Seed of war ...
Seed of war ...
Seed of war ...

If we pray for peace, if you don't let us DOWN

**Don't let us go down this way
We have to pray you will have to pay
Don't let us go down this way
You have the will to stay
Don't let us go down this WAY
We'll find you
We'll bind you
We'll hurt you
We'll kill you...stop**

**If we pray for peace, if you don't let us down
Goddamn we're waiting before hitting ground
If we serve and die, if you don't let us down
Goddamn we're waiting for this last round
Don't let us down
Don't let us down
Don't let us down
Don't let us down**
