

# Crucified

*Let`s go...*

Will I ever wake up  
Before I hate me – too  
I will never give up  
Passed the – consequences – through

The names you give – Inside me  
Let me spit on you  
My time will come to lead this  
Bullet into you...

**Why`am crucified**  
**Why`am crucified**

I will never change me  
Only to be you  
Do you want to controll  
Mind controll – but not – for you

Pray for never cross the  
Borderline – my friend  
The time is now to bring this  
To a better end...

**Why`am crucified**  
**Why`am crucified**

So show me your true face  
On a dark ice-cold place  
The Silence surrounds your voice  
Now you have no choice

Something I hold into your face  
No – This time you`re not my mistress

WHYYY?????

**Why`am crucified**  
**Why`am crucified**

WHYYY?????
