

# Lost

*Lost...Something I...*

Crash together when - I can't reach your hand  
Can't reach you  
In you I've lost my mind – something that I can't find  
Can't find it  
You make me so blind – can't take a view behind  
Can't see it

*Some...thing... - Lost*  
*Some...one... - Lost*

Name to name on list – somebody I have missed  
So many  
Friend and friend have gone – only I stay so long  
Only I stay  
Mask 'n` mask fall – can I stand so tall  
Can I stand

**Myself I've Lost**  
**I don't want your trust**  
**Myself I've Lost**  
**No more trust**

Day by day will gone – after all I become  
I become  
Hard to hard that days – beware of cross my ways  
Please beware  
Close 'n` closer come – now I can smell the scum  
I smell you

*Some...thing... - Lost*  
*Some...one... - Lost*

Hurt and hurt me or – that I can hurt you more  
I'll hurt you  
Can I stay alive – when I destroy my live  
I'll destroy  
More and more I feel – Can I be like steel  
I can be

**Myself I've Lost**  
**I don't want your trust**  
**Myself I've Lost**  
**No more trust**

Something I've lost – Inside  
Don't want your trust – This time  
Something I've lost – Inside  
Don't want your trust – So fuck it!

Something I've lost – Inside  
Don't want your trust – This time  
Something I've lost – Inside  
Don't want your trust – So fuck it!

Myself I've Lost  
I don't want your trust  
Myself I've Lost  
No more trust

*Lost...*  
Fear to get inside – To see there's nothing right  
*Lost...*  
Don't you be that pride – Don't kill yourself tonight  
*Lost...*  
Breath and get inside – To see it's nothing but LOST!
